WHAT WE DO
CONNECT: OUR CAMPUS
WELCOME

At UOW Batemans Bay we bring university education to the local community. You can study with an internationally recognised institution without leaving home.

At our Campus you will learn in a friendly environment, participating in small classes as well as linking with other students across the network of UOW campuses.

STUDY LOCALLY

At UOW Batemans Bay you will be given personal attention allowing you to concentrate on your studies. Our staff are very approachable and give you guidance throughout your degree.

Coming here means being able to stay at home, thus reducing the costs of attending university, maintaining your family support networks and continuing in local employment.

STUDY AT A WORLD-CLASS UNIVERSITY

UOW was the highest-performing public university in Australia overall for ‘domestic graduates’ in the independent Good Universities Guide 2012.

Results like these are great. We love to have our hard work acknowledged—but honestly we’d be doing what we’re doing anyway.

DANIEL KOSTIAINEN
BACHELOR OF ARTS

“At UOW Batemans Bay the tutors and the lecturers are great. Classes are small and it makes it easy for me to concentrate on my studies.”
CONNECT: UNDERGRADUATE PROGRAMS

BACHELOR OF ARTS
The Arts degree offers a broad range of subject areas in the fields of English Literature, History, Sociology, Indigenous Studies, Environmental Studies, Politics and more. This degree opens up a variety of opportunities for students in a range of employment areas and further studies, including Teaching.

BACHELOR OF BUSINESS
A comprehensive business degree shaped to meet the needs of employers operating in a global business environment. You will study the essential disciplines of accounting, economics, finance, management and marketing whilst being given enhanced scope to study a range of elective subjects.

BACHELOR OF COMMERCIAL DEAN'S SCHOLAR
A program for high achievers. Contains the same subjects as the Bachelor of Commerce with additional privileges including academic mentors, textbook allowance, seminar programs and special research projects.

BACHELOR OF ECONOMICS & FINANCE
A highly specialised degree based on the Bachelor of Commerce, where you focus your studies on economics and finance from the very start of your degree.

BACHELOR OF NURSING
The Bachelor of Nursing is a professional degree which builds a foundation for nursing practice. This degree qualifies graduates to become a registered nurse opening up opportunities to travel the world, work in diverse clinical areas, and meet interesting people in interesting places.
A Bachelor of Arts degree is one of the more traditional and popular university degrees. Subjects with origins in the humanities such as history and literature and in the social sciences such as sociology and related disciplines are generally included in an Arts degree.

In contrast to programs such as engineering or education, which are geared toward particular professions, Arts programs don’t train students for specific jobs. Instead, Arts programs focus on highly adaptable general skills and broad knowledge. Employers in all fields look for employees who can see the ‘big picture,’ work collaboratively, and speak and write effectively. Arts graduates are highly valued by employers, who praise them for their versatility and worldliness.

Employers want graduates who can find information, analyse it, and make independent and informed decisions. They want people who can handle the technology and be creative. Our degrees teach critical analysis, and produce good researchers and decision–makers. Our graduates have the ability to adapt to changing environments, allowing them to gain new skills and knowledge throughout their careers, and can communicate effectively in order to get the job.

TEACHING IS AN OPTION

The Bachelor of Arts degree, combined with a Graduate Diploma in Education (Primary or Secondary) provides a path to a career in teaching, as well as the flexibility to keep your options open to other careers. With careful selection of subjects, Graduates may teach in either Primary School or in High School in H.S.I.E., English or History.

WHAT YOU STUDY

Completing one major is a core requirement of your Bachelor’s degree and accounts for about one third of your whole degree. Your major is the approved area in which you specialise. The BA is a flexible degree, you can do two majors and a minor (half a major); you can do one major and three minors; or you can do one major and lots of electives. The flexibility of the BA allows you to play to your strengths!

The degrees focus on the development of highly adaptable skills and a broad base of knowledge.

We teach all those critical skills which employers want such as:

- Reading & understanding
- Analysing and evaluating
- Independent thinking and working
- Problem-solving
- Communication skills

At UOW Batemans Bay there are 5 majors on offer that may be studied entirely at the Campus: Community, Culture and Environment; English Literatures; History; Indigenous Studies; Sociology. Of course you are also able to attend the Wollongong Campus to study additional subjects or majors.

JAIMEY FACCHIN
BACHELOR OF ARTS (COMMUNITY, CULTURE AND ENVIRONMENT)
“UOW Batemans Bay is unique. I love how everyone knows your name and how the students help each other. UOW Batemans Bay is my second home and I feel proud to be a student here.”
COMMUNITY, CULTURE & ENVIRONMENT MAJOR

This major will challenge you to think outside traditional disciplinary boundaries. Subjects in sociology for example, inform the community theme; English and history inform the cultural theme; and earth sciences and science and technology studies inform the environmental theme. Some subjects move across all themes, like those offered by Indigenous Studies.

Possible subjects include:
- Communication, Media and Society
- Redefining Eden: Indigenous Peoples and the Environment
- Children’s and Young Adult Fantasy Literature
- Australia Fair: Post–Federation Australian Literature
- The Environmental Context: Imagining a Zero Carbon Future
- The Human Environment: Problems and Change

ENGLISH LITERATURES MAJOR

English Literatures introduces you to a broad range of literary texts—novels, poetry, essays, drama, short stories, film, diaries and letters—drawn from medieval times to contemporary popular culture. A strong international focus draws texts from around the world. The major teaches you to analyse what you read and articulate your response with sharp critical skills and cultural sensitivity. You will be encouraged to enquire into the politics of the writing and reception of these texts, and to understand aesthetics and the value of literature as they relate to questions of race, gender, sexuality, class and nation.

Possible subjects include:
- Modernism
- US Literature
- Children’s and Young Adult Fantasy Fiction
- Romantic Literature
- Black Writing from Africa, U.S. and the Caribbean

HISTORY MAJOR

History aims to understand and interpret the past, bringing together both facts and moral judgements to analyse the background of contemporary society. You will develop a sophisticated appreciation of contemporary approaches to historical theories and methods. Interpretation, argument and evidence are used to understand the broad scope of human experience.

The History major focuses on themes that link Australian and international history, including culture, environment, gender, globalisation, historiography, labour, war and regional development.

Possible subjects include:
- Gallipoli Study Tour
- Twentieth Century Dictatorships
- Ancient History: Greece
- Australians and War: From Kokoda to Iraq
- Debates in Australian Cultural History
INDIGENOUS STUDIES MAJOR
This major combines Indigenous Studies subjects offered by the Faculties of Arts, and other Faculties. You will gain a detailed understanding of the Indigenous Australian perspective on society, culture and history.
Possible subjects include:
- Identity, History and Resilience
- Introduction to Aboriginal Arts and Society
- Indigenous Peoples and Decolonisation: Global Perspectives
- Redefining Eden: Indigenous Peoples and the Environment
- Debates in Australian Cultural History

SOCIOLOGY MAJOR
Sociology is the systematic study of human society and social organisation. From prison riots and military coups to bus stop queues and McJobs, from globalisation to raves, from cosmetic surgery and custom cars to ‘microblogging’ and ‘binge drinking’, sociologists investigate and reflect on how society is structured, how it’s changing, and how the individual and society interact. Sociology will provide you with the conceptual, critical and analytical skills and literacies required in today’s complex and rapidly changing world.
Possible subjects include:
- Investigating the social world
- Genders and Sexualities
- Youth Cultures
- Scenes, Subcultures, and Neo–tribes
- Sustainable societies

HONOURS
Honours is a fourth year of study added on to the end of an undergraduate degree. For some students, it gives them an employment advantage in their post University careers. The Honours year also functions in the university curriculum as a bridge between undergraduate study and postgraduate research. It offers a unique opportunity to study a chosen discipline or interdisciplinary area in depth and to undertake a personalised research project working closely with a supervisor who is an established expert in the field of study being undertaken. As an entry point for postgraduate research students, it provides a stimulating and supportive environment in which students formulate ideas, engage in debate, develop research skills and acquire the critical tools that will equip them for a research career. An Honours year can provide you with a competitive edge in your chosen profession. It also provides a gateway for postgraduate research programs if you wish to pursue a Masters by Research or PhD in the future.
The Honours year provides:
- training in research skills and in information systems (archives, the Library, databases, electronic research networks)
- opportunity to practise articulating complex ideas orally and in writing, experience in working closely with a supervisor on a project and in preparing a major project to meet a deadline
- experience in devising, researching and writing up an individual topic of study in an extended argument/thesis.

NICOLA BATH
BACHELOR OF ARTS (HONOURS)
“UOW Batemans Bay provided me with the opportunity to upgrade my qualifications while at the same time allowing me to study close to home and continue spending time with my family.”
Bachelor of Business

This is the most flexible degree in the Faculty of Commerce. It will teach you the core disciplines of business and let you tailor your own study program. Like the Bachelor of Commerce, in the first year you will study the essential core disciplines of accounting, economics, finance, management and marketing. As there is no major in the Bachelor of Business, students are given more flexibility to study a range of electives and subjects to meet individual interests. This includes subjects outside of Commerce that you may be interested in.

Bachelor of Commerce

Commerce is UOW’s largest faculty, with students and teachers from all over the world. The Bachelor of Commerce is the Commerce faculty flagship degree. It balances flexibility with specialist knowledge: you choose your specialised majors, and combine it with electives or a second major. In the first year you will study the essential core disciplines of accounting, economics, finance, management and marketing.

This degree is for students who would like to specialise in one or more of the principle areas (majors) of business and commerce. It consists of two components: nine core subjects and the flexibility to choose subjects from a variety of majors. You can also choose a double major or a major and a minor.

TOM PRITCHARD
BACHELOR OF COMMERCE

“The best thing about studying at UOW Batemans Bay is the friendly environment and the nice people.”
ACCOUNTANCY

Accountancy is about providing useful (reliable, timely and accurate) information for decision makers, especially in relation to economic decisions. Whether you are working for a multinational company, a government agency or in public practice, accountants play a pivotal role in advising senior management on the financial performance and direction of the organisation. If you’re the type of person interested in business and have an aptitude for both logical and critical thinking, accountancy might be the right choice for you.

WHAT YOU STUDY

You will study advanced accountancy topics including financial reporting, auditing and management accounting. You will learn about financial accounting in its organisational, social and political contexts as well as study relevant law subjects (including taxation law and law of business organisations) so as to be eligible for associate membership of professional accounting bodies.

PROFESSIONAL RECOGNITION

When you graduate, you may be eligible for associate membership of the Australian accounting professional accounting bodies, CPA Australia, the Institute of Chartered Accountants Australia (ICAA) and the Institute of Public Accountants (IPA). Graduates can also apply for associate membership of international professional accounting bodies including the Association of Chartered Certified Accountants (ACCA) and the Chartered Institute of Management Accountants (CIMA).

CAREERS

Accountants are in equally high demand in the public and private sectors. The scope of accountancy jobs is broad. You may work at a strategic level, advising senior management on major business decisions or you could work in a smaller unit monitoring specific business functions and providing solutions to improve business efficiency and effectiveness.
Bachelor of Commerce Dean's Scholar

The Dean's Scholar Program is designed for high-achieving students. Dean’s Scholars complete the Bachelor of Commerce with a number of added benefits:

- **Access to an academic mentor**
  You’ll be paired with a mentor in the faculty. You’ll be able to draw on their experience, insight and guidance to overcome academic challenges and take advantage of special opportunities.

- **Textbook/materials allowance**
  You will have an annual allowance to pay for textbooks and other learning resources.

- **Extended library access**
  Expanded library borrowing privileges will put you in the same category as research students—giving you access to the resources you need for special projects.

Bachelor of Economics and Finance*

The Bachelor of Economics and Finance is a three-year degree for students who want to specialise in economics and finance from the very start of their degree.

In the first year of study you will learn the core disciplines of accounting, economics and finance. Second-year and third-year subjects focus on advanced economics and finance. In the final year, you will also undertake an applied research project. This may include a workplace project or more traditional research paper related to economics and finance.

You will focus your degree by choosing one of four majors. These major studies are closely modelled on the majors within the Bachelor of Commerce – Economics, Finance, International Economics, Quantitative Analysis in Economics.

*Students can study the first year at UOW Batemans Bay and complete the final two years of the degree at the Wollongong campus.
Nurses are fundamental to health care—one of the essential roles of any hospital or health care setting is to give nursing care. With this in mind, it’s easy to see why motivated, skilful and compassionate nurses are key to healthcare in the future. We emphasise independent study and inquiry as well as team work.

This degree builds a foundation for nursing practice: effective and appropriate professional and caring behaviours and their relevance to holistic health care; and reflective nursing practice skills. It draws on principles of biological, social and behavioural sciences; communication skills; collaboration in a health care team; effective and culturally sensitive practice; responsibility for professional development; and effective time management. As a registered nurse you’ll have the opportunity to travel the world, work in diverse clinical areas, and meet interesting people in interesting places.

WHAT YOU STUDY

The Bachelor of Nursing comprises 144 credit points of core subjects. This is a prescribed course if you’re seeking registration with the New South Wales Nurses and Midwives Board. The following is a sample course structure only and students should consult the University of Wollongong for more information.

- Year 1 of the course introduces Principles of Nursing Care;
- Year 2 of the course focuses on Principles of Episodic Care; and
- Year 3 of the course is concerned with Principles of Chronic and Complex Care.
- 20 weeks off-campus nursing practice and experience in a variety of health care settings are provided in collaboration with various health care providers.

CAREERS

Whether it is in urban, rural or remote communities; a small or large public or private hospital; a developing country; a non-government organisation NGO; the Australian Defence Force or an individual’s home; Registered Nurses are required.

The Bachelor of Nursing degree from the University of Wollongong provides graduates with the requisite knowledge, clinical skills and attitudes to respond to all areas of need.

*Subject to final confirmation (to be offered in 2014)
CONNECT: BEYOND YOUR DEGREE

GRADUATE DIPLOMA IN EDUCATION
A professional post graduate degree which qualifies graduates to work as either a Primary or Secondary Teacher. This program also offers the opportunity for already qualified teachers to convert to either Primary or Secondary qualifications.

MASTER OF MANAGEMENT
This program offers a flexible program of study for those already working in management, those aspiring to managerial positions or those who feel they have knowledge gaps. Students can tailor the subject choices to meet their individual requirements.

GRADUATE CERTIFICATE IN MANAGEMENT
An entry level qualification which when completed can be transferred into the Masters program. Students select subjects to suit their individual requirements.

PAUL ANDERSON
MASTERS OF MANAGEMENT
“I chose to study at UOW Batemans Bay because it is close to home and offers me access to a university with exceptional national and international standing. The courses on offer are relevant to my work and interests.”
The Graduate Diploma in Education (GDE) is a professional postgraduate teacher education program. It is a course for university graduates who want to become a primary or secondary school teacher. It also serves as an introduction to the disciplines of education for those who may wish to pursue higher studies in the field.

The program involves video conferenced lectures and seminars, tutorials with local education experts, individual assignments, group exercises, field trips and blocks of supervised practice teaching in schools. Both primary and secondary students undertake core educational theory subjects in educational psychology, sociology, quality teaching and pedagogy, literacy across the curriculum, aboriginal education, personal development, health and physical education and learners with special needs.

The program provides a teaching qualification that is recognised by the NSW Department of Education and Communities (DEC) the Catholic Education Office, independent primary schools and employing authorities in other states. It is also accepted internationally. The course has received full accreditation status from the NSW Institute of Teachers.

FULL-TIME OR PART-TIME

The full time program runs over one calendar year, which extends beyond the standard academic year; from mid-January to end of November for the primary program; and mid-February to end of November for the secondary program. The GDE part-time program can be undertaken over three or four semesters beginning mid January in the first year for primary and mid February for secondary.

ENTRY CRITERIA

Students must have an undergraduate degree that meets the teaching requirements of the NSW Institute of Teachers for primary teaching, including the correct number of subjects in the specified key learning areas. For a detailed explanation, see uow.edu.au/educ/courses/graddiped or contact the UOW Batemans Bay to discuss your previous education and experience and to obtain further information on the application process.

PRIMARY

The Graduate Diploma in Education (Primary) is an intensive program that integrates professional experience with foundation education studies and skills relating to the understanding of, and competence in teaching.

Primary school teachers are trained to teach across the following six key learning areas:

- English
- Maths
- Science and Technology
- Human Society and Its Environment
- Creative and Practical Arts
- Personal Development, Health and Physical Education
Postgraduate degrees

Graduate Diploma in Education (Secondary)

Secondary school teachers teach one or more subjects to students in Year 7 to Year 12. At the secondary level along with the study of core education subjects the teaching subjects known as methods available to be studied may include*:

- Science
- Mathematics
- English
- Modern History
- Geography
- Business Studies
- Legal Studies
- Music
- Visual Arts
- Drama
- French
- Computer
- Personal Development, Health and Physical Education
- Society and Culture

*Methods offered are dependent on the number of applicants, and not all methods are available at satellite campuses. Methods not available may be studied via distance education through other institutions.

Overseas Professional Experience

Students in the program have the option of completing part of their professional experience overseas. The overseas experience parallels and earns the same credit towards the Graduate Diploma as the three-week local professional experience. The time overseas offers an illuminating professional experience that is both different from and yet relevant to teaching in Australia. In addition, through contacts with teachers and students, there is the opportunity for a much more meaningful interaction with a different culture than is available to most overseas visitors.

Scholarships

A number of teaching scholarships are made available each year by the NSW Department of Education and Communities (DEC). For further information please visit: www.teach.nsw.edu.au

Applying for Employment as a Teacher

Completion of an undergraduate degree plus the GDE gives the graduate provisional accreditation recognised for employment in all NSW Government, church and independent school systems. Graduates will be guided through the interview and selection processes for employment with the NSW Department of Education.
Master of Management

The Master of Management allows you to tailor the program to suit your professional development needs. The key benefit of this program to you is access to graduate management education with a greater flexibility of subject selection. Advice from a graduate advisor will be provided to assist you in making your selection. This program has been designed for a wide variety of individuals. Those already in management, those aspiring to managerial positions or those who feel they have knowledge gaps.

PROGRAM STRUCTURE

The program comprises an appropriate selection of eight subjects from the portfolio of Sydney Business School coursework subjects

SAMPLE STUDY AREAS

- Accounting for Managers
- Statistics for Decision Making
- Managing People in Organisations
- Marketing Management
- Economic Analysis of Business
- Information Systems for Managers
- Financial Strategy
- Supply Chain and Operations Management
- Corporate Governance

The program has been designed for those who work full time. Classes are held one evening each week. Each unit is delivered over nine weeks of seminars, followed by a short break before moving onto the next subject. This allows students to concentrate on just one subject at a time and complete the program in manageable segments while still completing up to six units each year.

ENTRY

Recognised Bachelor Degree with a minimum 60% average

CREDIT ARRANGEMENTS

Graduates who wish to complete another of the one year Master programs at Sydney Business School may be eligible for credit transfer of up to 2 subjects in the second degree.

Candidates who also satisfy the MBA professional experience requirement may progress into the MBA and be eligible for credit transfer of up to 6 subjects.

Graduate Certificate in Management

For those students who wish to complete a management development program of shorter duration, the Graduate Certificate in Management comprises four subjects selected in consultation with the Program Director. The Certificate will take 6 months full-time or part-time equivalent to complete. Subjects completed in the Graduate Certificate are eligible for credit transfer when progressing into the Master of Management program.

ENTRY

Applicants for the GCM should have managerial work experience and typically a minimum of two years equivalent full time study in a relevant discipline.
CONNECT: MORE INFO
GETTING TO CAMPUS

Free parking is available on-campus, and the Batemans Bay Campus is accessible by public transport. Priors Bus Service operates in the area. Access the timetable by visiting www.priorsbus.com.au/timetables.html

FACILITIES AVAILABLE

Library: The Batemans Bay Library is located on site with UOW Batemans Bay Campus and has an extensive collection of UOW books as well as the local collection. In addition to the print resources, electronic resources are available from the Library website. There are quiet study areas and wireless networking available in the Library.

Computers: There are computers available for student use in the computer room as well as the Library and student area.

Wireless internet access: A wireless network is available for student to use within the campus. This network is available for all wireless enabled devices (such as laptops, smart phones and tablets).

Print services: Students have access to low cost printing and photocopying in both black and white and colour in A4 or A3 size.

Common Room: As well as a space to relax between classes, the Common Room is equipped with microwave, fridge, dishwasher, and tea and coffee making facilities. There is an adjoining sunny terrace available for students to use.

24 hour access: Students can access the Campus any time of the day or night, seven days a week to use the University computers or simply find a quiet place to study.

Learning assistance: This free service is available for all students relevant to their individual studies. Workshops assist you in all areas of university studies such as: how to research, reference, write a uni essay and give presentations. One on one assistance is also available.

UOW Careers Central: Offers advice and guidance to students regarding their future employment options and study strategies. A Careers Advisor is available to students at the Campus.

Counselling services: A qualified counsellor is available for free student consultations regarding appeals, academic consideration, or to talk through and change areas of difficulty, conflict or crisis.

Disability services: Access and resources are available for students with disabilities and medical conditions that affect their studies.

Scholarships: A variety of scholarships are available to students at UOW Batemans Bay. These include community sponsored scholarships, Mature Age students (21yrs and over) scholarships and the Apex Ivan Bandur scholarship for teaching students. Students are encouraged to visit the website to find out availability and eligibility.

More information about these scholarships is available at: uow.edu.au/about/scholarships or by contacting the UOW Batemans Bay campus.
**FAQ**

**HOW LONG WILL MY DEGREE TAKE?**
If you are studying full-time, most undergraduate degrees will take three years to complete.

If you decide to study part-time, the length of time depends on the number of subjects you take per year. For example, if you decide to take half the normal load, a three-year full-time degree will take you six years.

**HOW MUCH WILL IT COST TO STUDY?**
In addition to your Tuition fees, you will be charged the compulsory annual Student Services and Amenities Fee ($131.50 in 2012) which allows the University to cover costs and improvements to campus amenities and services. You will also need some money for study materials (books, paper, pens, photocopying, etc.).

For more information about Commonwealth supported places, student contributions and HECS-HELP loans visit [studyassist.gov.au](http://studyassist.gov.au)

**WHAT WILL IT BE LIKE TO STUDY AT THE BATEMANS BAY CAMPUS?**
At UOW Batemans Bay you will become part of a group, or team of students, studying and working directly with tutors, as well as independently.

Studying at a local campus has more web-based interaction than is presently the case with study at a larger campus.

**HOW DO I APPLY TO STUDY AT UOW BATEMANS BAY IF I AM DOING MY HSC THIS YEAR?**
If you are in year 12 in NSW or the ACT this year, your school will give you information about how to apply to the Universities Admissions Centre (UAC). You can apply to do a course at our Batemans Bay Campus by having one of our programs as a preference.

Bonus points are available for students who apply to study at our Batemans Bay Campus and anyone wishing to undertake one of our degrees is encouraged to contact the Campus to discuss the options that are available.

**HOW DO I APPLY IF I DID MY HSC IN PREVIOUS YEARS OR I HAVE OTHER QUALIFICATIONS?**
If you are not doing your HSC this year, then you have a choice. You can either complete what we call a direct application or apply through UAC (uac.edu.au). A direct application form can be obtained from the Batemans Bay Campus or on the web at: [uow.edu.au/future/direct/apply](http://uow.edu.au/future/direct/apply)

The University welcomes direct applications and provides a personalised service to you to talk with us about your individual circumstances. We will keep you updated on the progress of your application and you will generally find out the result of your application much quicker than when you apply through UAC. Direct applications are free.
WHAT QUALIFICATIONS WILL GET ME INTO UNIVERSITY?

There are a number of qualifications that you can use to get into university. These include

- **Year 12** – Results from previous years will be converted to a current ATAR.
- **Special Tertiary Admissions Test** – This is a multiple choice test run through UAC. Information about the test is on the UAC web site and you can organise to do the test at one of the official sites or pay a bit more and do a special sitting locally. Information about the test is in the current UAC Guide and on the following website: uac.edu.au/stat
- **TAFE Qualifications** – You can get into the University of Wollongong with a wide range of TAFE qualifications. A minimum of Certificate IV is generally required.
- **Completed Qualifications from a recognised Institution** – A minimum of Certificate IV qualification that has Australian Quality Framework approval is needed.
- **Completed or partially completed University studies**
- **UOW College** – The College offers a range of programs through the Wollongong Campus.
- **University Access Program** – This is a 12 week program run by UOW College for people over 21 at our Wollongong Campus and at our Shoalhaven Campus. Some Commonwealth supported places are available.
- **Limited Australian Tertiary Admissions Rank**
- **Aboriginal and Torres Strait Islander Alternative Admissions Program**

For more information about any of these pathways, visit uow.edu.au/futuredirect/apply/pathways or call your local Campus or the general University information number listed on the back of this brochure.

WILL I COMPLETE MY ENTIRE DEGREE AT UOW BATEMANS BAY OR WILL I NEED TO ATTEND THE WOLLONGONG CAMPUS TO FINISH IT?

You can complete a selection of our most popular degrees in their entirety at UOW Batemans Bay. Other degrees can be commenced at the Batemans Bay campus and completed at the Wollongong campus. Future students are encouraged to read the individual degree entries included in this document, or to contact the University for more information.
